**DISPOSAL OF 42% INTEREST IN INNER MONGOLIA PULATE TRANSPORTATION ENERGY CO., LTD. (内蒙古普拉特交通能源有限公司)**

**1. INTRODUCTION**

The Board of Directors (the “**Board**”) of China Jinjiang Environment Holding Company Limited (the “**Company**”) and together with its subsidiaries, the “**Group**”) wishes to announce that its wholly-owned subsidiaries Gevin Limited (“**Gevin**”) and Lin’an Jiasheng Environment Co., Ltd. (临安嘉盛环保有限公司) (“**Lin’an Jiasheng**”) had on 30 September 2017 entered into a sale and purchase agreement (“**SPA**”) with Zhejiang Kangrui Investment Co., Ltd. (浙江康瑞投资有限公司) (“**Zhejiang Kangrui**”), in relation to the sale by Gevin and Lin’an Jiasheng of a 36.0% and 6.0% equity interest in Inner Mongolia Pulate Transportation Energy Co., Ltd. (内蒙古普拉特交通能源有限公司) (“**PLT Energy**”), respectively, to Zhejiang Kangrui for an aggregate consideration of RMB67.2 million (equivalent to approximately S\$13.8 million) (the “**Disposal Consideration**”) (the “**Disposal**”).

Zhejiang Kangrui is wholly-owned by Ms. Dou Baibing, the daughter of the controlling shareholder of the Company Mr. Dou Zhenggang. Accordingly, Zhejiang Kangrui is an associate (as defined in the Listing Manual of the Singapore Exchange Securities Trading Limited (“**Listing Manual**”)) of Mr. Dou Zhenggang and an interested person of the Company for the purposes of Chapter 9 of the Listing Manual, and the Disposal would constitute an interested person transaction pursuant to Chapter 9 of the Listing Manual.

The Disposal is expected to be completed in early 2018 following full payment of the Disposal Consideration by Zhejiang Kangrui in accordance with the SPA. As the aforesaid equity interests sold by Gevin and Lin’an Jiasheng to Zhejiang Kangrui represent the entire equity interest held by the Group in PLT Energy as at the date of this Announcement, upon completion of the Disposal:

- (a) Zhejiang Kangrui will hold an 80.0% equity interest in PLT Energy; and
- (b) PLT Energy will cease to be an associated company of the Company.

Unless otherwise indicated, RMB amounts in this Announcement have been translated into Singapore dollars, based on the exchange rate of S\$1.00 : RMB4.8764 quoted by Bloomberg L.P. on the close of the market day preceding the date of this announcement.

## **2. DETAILS OF THE DISPOSAL**

### **2.1 Information on Zhejiang Kangrui and PLT Energy**

Zhejiang Kangrui is a company incorporated under the laws of the People's Republic of China ("PRC") on 3 July 2003 with limited liability, and is primarily engaged in investment holding and the sale of equipment, materials and aluminium products.

PLT Energy is a company incorporated under the laws of the PRC on 12 February 2004 with limited liability, and owns and operates a waste-to-energy ("WTE") facility in Baotou, Inner Mongolia Autonomous Region with a total installed waste treatment capacity of 1,200 tons per day. As at the date of this Announcement, the equity interest in PLT Energy is held as to 38.0% by Zhejiang Kangrui, 36.0% by Gevin, 6.0% by Lin'an Jiasheng and 20.0% by Mr. Bao Baizhi, an unrelated third party. The Group had acquired its 42.0% stake in PLT Energy in February 2011 from Mr. Bao Baozhi and Mr. Bao Bofu, who is also an unrelated third party.

### **2.2 Rationale for and Benefits of the Disposal**

As disclosed in the IPO prospectus of the Company dated 25 July 2016, there were several outstanding compliance issues which were historical in nature at the time of the Group's acquisition of its 42.0% stake in PLT Energy in February 2011, including the commencement of construction without having first obtained a construction permit, and having yet to complete the required completion inspection formalities. Whilst the Group had worked to rectify the outstanding compliance issues, such issues have taken considerable time to progress and have accordingly affected the financial and operational performance of PLT Energy. For example, the applicable electricity supply fee for PLT Energy is RMB0.377 per kWh instead of the national standard of RMB0.65 per kWh.

In addition, approximately RMB52.2 million of waste treatment fees payable to the Group in accordance with the concession agreement entered into by PLT Energy with the relevant local government are past due and remain outstanding. Due to the low population density of the Baotou region, its underdeveloped waste collection and transportation system and the convenience of landfilling as an alternative method of waste disposal, the amount of waste delivered to the WTE facility operated by PLT Energy averages only around 730 tons per day, despite the WTE facility having an installed waste treatment capacity of 1,200 tons per day.

As a result of its inability to achieve stable economic returns due to the aforesaid compliance and operational issues, PLT Energy has been operating at a loss since it commenced operations. PLT Energy experienced a net loss of RMB20.3 million, RMB35.6 million and RMB60.0 million in the financial years ended 31 December 2014, 2015 and 2016, respectively. As at 31 December 2016, PLT Energy had accumulated losses of RMB127.6 million. The management of the Company does not foresee any improvement in the operating performance and economic returns of PLT Energy in the near future. Through the disposal of its 42.0% equity interest in PLT Energy to Zhejiang Kangrui, the Group has made a gain on disposal of approximately RMB65.0 million, and would be able to rationalise its financial and capital resources and focus on its other profitable operations.

## 2.3 Disposal Consideration and Term of Payment

Zhejiang Kangrui, Gevin and Lin'an Jiasheng had jointly commissioned an independent valuer, Wanlong (Shanghai) Asset Valuation Co., Ltd. (万隆(上海)资产评估有限公司) (the "Independent Valuer"), to prepare a valuation report in respect of PLT Energy dated 9 August 2017 (the "Independent Valuation Report").

According to the Independent Valuation Report, the fair value of PLT Energy of RMB116,912,800 (equivalent to approximately S\$24.0 million) was appraised by using the income approach and asset approach. The Group's total investment cost in PLT Energy is RMB67.2 million (equivalent to approximately S\$13.8 million), being its proportionate share of the registered capital of PLT Energy, and the net book value of the Group's 42.0% equity interest in PLT Energy as at 31 December 2016 is approximately RMB2.2 million (equivalent to approximately S\$451,200).

The Disposal Consideration of RMB67.2 million was arrived at after arm's length negotiations between Gevin, Lin'an Jiasheng and Zhejiang Kangrui on a willing-buyer and willing-seller basis after taking into consideration the fair value of PLT Energy as appraised by the Independent Valuer in the Independent Valuation Report and the Group's investment cost in PLT Energy. In accordance with the terms of the SPA:

- (a) RMB57.6 million and RMB9.6 million is payable by Zhejiang Kangrui to Gevin and Lin'an Jiasheng, respectively, in accordance with their respective shareholding proportions in PLT Energy; and
- (b) 50% of the Disposal Consideration is payable prior to 30 November 2017, with the balance 50% payable prior to 30 December 2017.
